LCS News Update | January 20 - 24, 2020

EXAMINATIONS HAVE BEGUN!

'Tis the season for examinations and culminating activities! This week was especially busy as all Vikings looked to finish each of their courses this semester as strong as possible!

Grade 10 students in Ms. Kovala's and Ms. Rodriguez's English classes shared positive comments about their classmates this week - just prior to their final day of examination review! What a great way to share the good vibes heading into some stressful times!

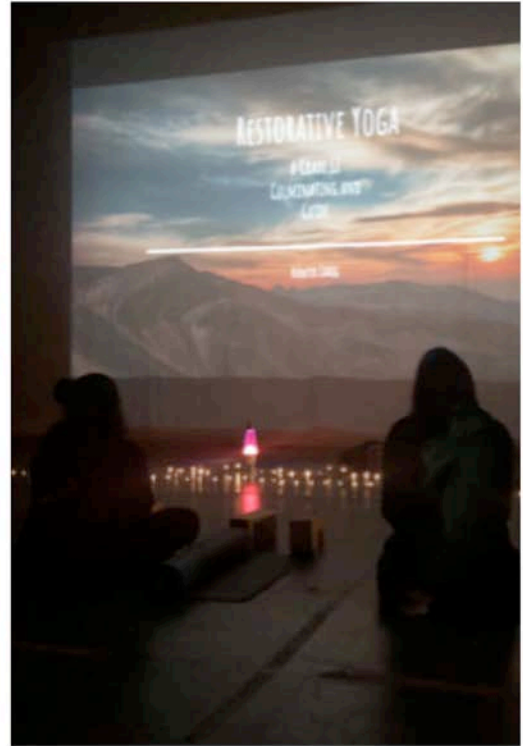

Student Council handed out some sweet Rockets treats to wish our Viking students all the best during the next few days. Of course, 'Vikings will *rocket* this exam period!'

Good luck
and
study hard!

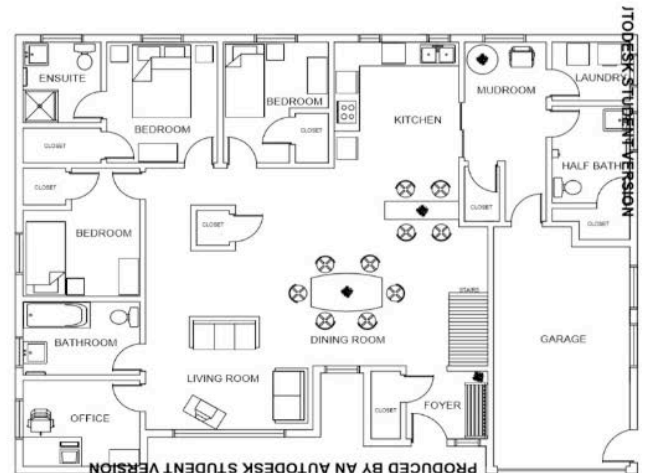

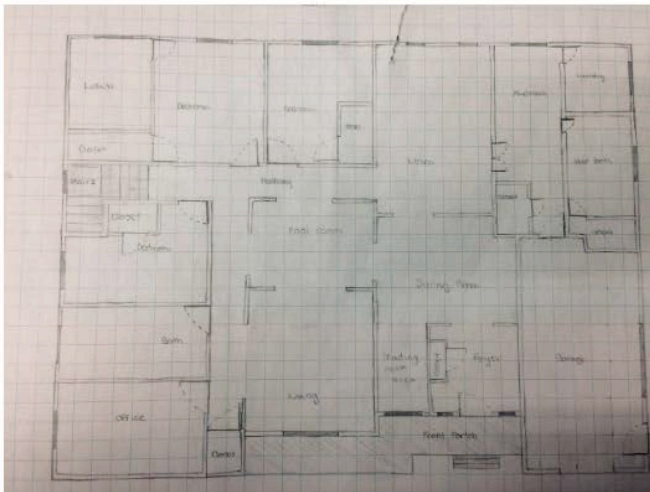

Our yoga students sure appreciated being led through intention making, breathing practices, energetic flow sequences, and guided meditations. The lessons learned on the mat can be some of the best lessons of all during this examination period!

As part of our examination week, Lockerby staff and students also raised awareness about mental health by writing encouraging messages and posting them in our Main Foyer! Also, on Bell 'Let's Talk Day,' (January 29th), our Viking community will be joining-in to help create positive change for mental health. On January 29th, for every text, mobile and long distance call by Bell customers, Bell will contribute 5 cents more to Canadian mental health programs. Our community is encouraged to use the hashtag #BellLetsTalk on all of their social media accounts. Lockerby Composite School also wants to remind students that if they need someone to talk to our teachers, counsellors, staff, and administrators are here to listen.

Additionally, Mr. Smith's grade 10 technology students successfully employed the design process during the development of their architectural floor plans, as part of their end-of-semester culminating activity. Beginning with a client's 'Design Brief' our Vikings students generated many different floor plans using bubble diagrams and concept sketches. To complete their designs, they chose between AutoCAD and the drafting tables to produce their finished floor plans.

THE SCHOOL OF SCIENCE AND TECHNOLOGY

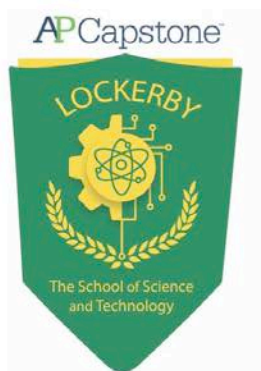

Ms. Benton's visual arts students also had the opportunity to showcase their artistic prowess, as their pieces were displayed throughout the Main Foyer (a culmination of all of their hard work this semester)!

Of course, during this examination period don't forget to visit the Library for a quiet place to study or for a quiet place to unwind.

good luck
