TAKING ART OUTSIDE

This week, our Grade 9 students took advantage of the sunshine and went outside to create art using found objects in their own backyards! After learning about Andy Goldsworthy, a Scottish artist known for his ephemeral works that use the natural landscape as a backdrop for his natural-object art, students set their sights on following his lead. You'll be amazed by the beauty that lies just beyond your front door, so get outside and try it yourself. Here are a few student creations.

WORLD WATER WEEK

This past Thursday, Lockerby's Environmental Council celebrated World Water Week virtually! Vikings were asked to 'Go Green' by wearing blue on in support of water sustainability and conservation. The lunchtime 'Nature of Things' documentary was well attended and addressed ecological concerns in freshwater lakes around the country (with specific focus on Lake Winnipeg). Thank you to everyone who supported this month's environmental awareness initiative!

RE: REMOTE LEARNING CONTINUES UNTIL FURTHER NOTICE

Dear parents/guardians:

We have confirmed with Public Health Sudbury & Districts that remote learning will continue until further notice.

That means there will be no in-person learning next week or until such time as Public Health Sudbury & Districts advises us that we may resume face-to-face instruction.

We will share information with families as soon as the current situation changes.

Thank you for your patience and understanding as we respond to COVID-19.

Please continue to follow all health and safety protocols to limit the spread, including hand washing, physical distancing, mask wearing and staying home.

The health and safety protocols are more important than ever with the highly contagious variants of the virus that are circulating in our community.

Thank you for working together to keep everyone safe.

Sincerely,

A handwritten signature in black ink, appearing to read "Norm Blaseg".
