

# WEEKLY NEWSLETTER

Lockerby Composite School's weekly news on Viking academics, events, extra-curriculars, and more!

## STAND-UP AGAINST BULLYING

This past Thursday, Lockerby Composite students and staff wore pink for 'Stand Up Against Bullying Day.' This annual day began in Nova Scotia where secondary school students Travis Price and David Shepherd arranged for dozens of their classmates to wear pink shirts in support of another student who had been bullied for wearing pink. The Province of Nova Scotia subsequently declared the second Thursday at the start of every school year to be 'Stand Up Against Bullying Day.' This day allows our community to create a culture where all people feel safe, valued and respected, regardless of age, sex, gender identity, sexual orientation, ability, or cultural background.

## SUPPLY AND DEMAND

From oil prices to home sales and seasonal grocery items, students in Grade 10 Business worked together this week to explain and graph changes in supply and demand.

## GAS COLLECTION

Students in Grade 9 STEP Science conducted a laboratory where they used various amounts of baking soda and vinegar to generate carbon dioxide gas. They then collected the gas in a balloon and measured the balloon's diameter. Students identified variables in the experiment and digitally graphed their results to assist them in interpreting their data.

THE SCHOOL OF SCIENCE AND TECHNOLOGY

# LOCKERBY VISUAL ART

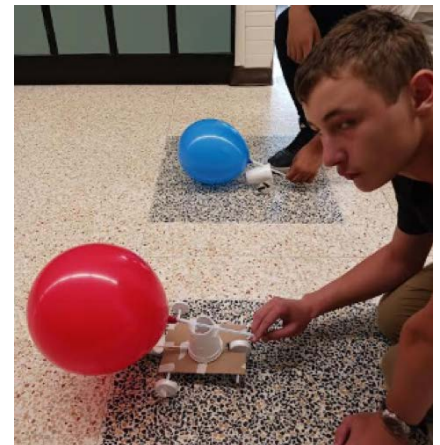

The first two weeks of school have given students lots of time to make art. From 'About Me' hands in Grade 9 to figure study and abstract designs in senior art, this group is off to a great start! Check out some of their creations below.

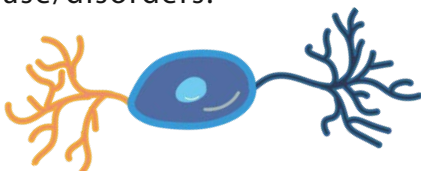

## START YOUR ENGINES!

Racers...start your engines! Our Grade 9 Science students constructed custom balloon cars in our design challenge this week!

## ANATOMY

This week in our Medical Technology class, students spent some time reviewing body systems and human disease/disorders.

## FANTASTIQUE!

This week, the very competitive class of Mme Stanyon learned how to play Huit Américain with proper vocabulary and pronunciation this past Friday in the library!

## MATH IS LIKE...

Students in Grade 11 Mathematics were challenged to use their creative side to complete the thought, 'Math is Like...' Here are a few of the highlights:

- Math is like the universe. It's always expanding.
- Math is like a 50cm line and I am 0.05cm across. There is a lot to learn.
- Math is like a ski race. There are tons of twists, turns and obstacles, but if you try hard enough you usually make it to the finish.
- Math is like riding a bike. The more you ride, the better you are.
- Math is like walking a tight rope. You have to stay completely focused. If you look track of even on part of the problem, you'll fall.
- Math is like trying to use Autocad. If you miss the lesson you'll never know how to do what you're supposed to be doing.
- Math is like archery. If you are not completely focused, you will miss your shots.
- Math is like money. You need it for almost everything.
- Math is like a circle. It never ends.

## THIS WEEK IN VIKING ATHLETICS...

### Cross Country Running

The Cross Country Running team competed in their first 4km preliminary race at Kivi Park this past Wednesday. The results for the Vikings were encouraging. Many athletes took time off from last year and many top-10 finishes for individual and teams were captured. Of note, the Senior Girls team placed first overall and the Senior Boys team placed second overall. For full results athletes are encouraged to check the Google Classroom. Despite the large size of the team, coaches and runners are still looking for interested Grade 9s and 10s to complete teams. New members are still welcome to participate. Please see Ms. Stanyon or Mr. Abols for further information. For parents and runners, the following includes dates, times, and places for the competition season:

- Prelim #2 - Wednesday, September 21st, at Kivi Park for relay events
